## Hospitality

## Please Start on Time

The head field event official should make every effort possible to begin the event on time, regardless if every athlete has had equal warm-up. No athlete should be given special treatment (such as additional warm-up, etc.) that impacts the start of the event or the continuation of the event. It is important to know that coaches make entries based on a planned schedule. Even the smallest and well intended delay to accommodate an athlete will likely have a negative impact on another athlete later in the meet.
